There are many reasons why a cookie could not be set correctly. Below are the most common reasons:

- You have cookies disabled in your browser. You need to reset your browser to accept cookies or to ask you if you want to accept cookies.
- Your browser asks you whether you want to accept cookies and you declined. To accept cookies from this site, use the Back button and accept the cookie.
- Your browser does not support cookies. Try a different browser if you suspect this.
- The date on your computer is in the past. If your computer's clock shows a date before 1 Jan 1970, the browser will automatically forget the cookie. To fix this, set the correct time and date on your computer.
- You have installed an application that monitors or blocks cookies from being set. You must disable the application while logging in or check with your system administrator.

**Why Does this Site Require Cookies?**

This site uses cookies to improve performance by remembering that you are logged in when you go from page to page. To provide access without cookies would require the site to create a new session for every page you visit, which slows the system down to an unacceptable level.

**What Gets Stored in a Cookie?**

This site stores nothing other than an automatically generated session ID in the cookie; no other information is captured.

In general, only the information that you provide, or the choices you make while visiting a web site, can be stored in a cookie. For example, the site cannot determine your email name unless you choose to type it. Allowing a website to create a cookie does not give that or any other site access to the rest of your computer, and only the site that created the cookie can read it.

Protecting National Treasures. The new monument is designated under authority granted by Congress in the 1906 Antiquities Act. Beginning with President Theodore Roosevelt, 16 presidents have used this authority to designate and protect such national treasures as the Statue of Liberty, the Grand Canyon, Colorado’s Canyons of the Ancients, and the C & O Canal. More than any other president, Obama has used this authority on 27 occasions to designate and preserve hundreds of millions of acres of public lands and waters. US Secretary of Commerce Penny Pritzker agreed, stating, “The United States is a leader in ocean stewardship and marine conservation.”

The Conservation Law Foundation CLF has been actively helping raise awareness about this region of the North Atlantic Ocean. All National Parks, 58 in total, represent an extraordinary variety of pristine natural environments and ranking them would be unfair since they all offer different experiences. Nonetheless, I hereby present you my top 10 list of the most beautiful National Parks of the USA, based on overall scenery, wildlife viewing, hiking opportunities, and our own experience. There is more information below the slide show. Think I missed one? The Centennial Campaign For America’s National Parks. Find Your Park Expedition (#FYPx). Explore Parks. NPF partnered with Alaska's national parks and the Ocean Alaska Science and Learning Center to improve the stewardship and protection of ocean resources managed by the NPS in the Last Frontier state. Through the NPF Resource Restoration and Protection program and its Alaska National Parks Marine Coastal Grants, parks have rescued and rehabilitated hundreds of marine mammals and seabirds, researched and monitored coastal habitats and enhanced stewardship through environmental education.
